REYNOARCH[®]

WPCLOUVERS

The WPC LOUVERS Collection from Reynoarch offers an exceptional design palette to create spaces that inspire individuals with the environments they create. The rich colour tones, realistic finishes, warm woodgrains and eclectic abstracts combine contemporary aesthetics with an inviting sense of nature. Whether your inspiration is derived from wooded trails or urban landscapes, the Reynoarch WPC LOUVERS collection is the closest to nature. It is available in different finishes with great versatile designs, forward patterns and finishes.

WPC LOUVERS, is the best replacement of wood & marble being used for exteriors of our home and commercial buildings. It is considered to be one of the most decorative surface material and its available with special performance properties including chemical, fire and water resistance powered by research & development team. Recently, we developed WPC LOUVERS with 25mm thickness which is perfectly suitable for extreme & Adverse weather conditions in India. These WPC LOUVERS are getting widely used in miscellaneous fields due to its excellent mechanical & physical performance making it as one of the most popular material in various application areas such as Balcony Cladding, Wall Cladding, Gate Elevation, Attic cladding, Rafters, Fence, Ceiling, Canopy, Pergola & Railings.
